Computer Science Engineering student with a solid foundation in web development, cloud computing, and programming. Maintains a strong academic record and has hands-on experience through projects and internships. Actively involved in developer communities and always willing to learn new technologies, solve real-world problems, and contribute to team success. Focused on building practical, innovative tech solutions while continuously improving skills.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** Nov 2022-Aug 2026
Annasaheb Dange College of Engineering and Technology Ashta
Pursuing B.Tech (Honors) with a **Multidisciplinary Minor**.
Also pursuing a **Minor** in Electrical Engineering with specialization in **Electric Vehicle Technology**. 9.2 CGPA
- **HSC (Maharashtra Board)** June 2021-Feb 2022
New English School Vita 85%
- **SSC (Maharashtra Board)** June 2019-Marc 2020
Swami Ramanand Vidyalay, Ramanandnagar 97%

SKILLS

- **Language:** C, C++, Python.
- **Database:** MySQL, PostgreSQL
- **Tools:** VS Code, Jupyter Notebook, Google Colab, Git.
- **Web Development:** HTML, CSS, JavaScript, React.js, Three.js, Node.js, Express.js, RESTful APIs
- **Cloud Computing:** AWS .
- **Machine Learning:** Scikit-learn, Pandas, NumPy, Matplotlib.
- **Design & Prototyping Tools:** Figma, Canva.

PROJECTS

- **Siddhant Medical Shop Billing System (sponsored):** Developed a sponsored desktop application for medical shop billing, automating inventory management, vendor tracking and invoice generation. Integrated email automation to fetch vendor invoices.
– Python, PyQt6 , MySQL
- **SVMMS:** Built a **Smart Vehicle Maintenance Management System (SVMMS)** to automate workshop operations including service booking, job cards, billing, and real-time service status, improving efficiency and data accuracy.
– React.js, Vite, Tailwind CSS, Node.js, Express.js, PostgreSQL, JWT, AWS
- **EVaahan – Electric Vehicle Buying & Selling Platform**
Developed a web-based platform that provides detailed EV listings, specifications, comparison tools, and direct buyer–seller communication to simplify electric vehicle adoption, especially for rural users.
– HTML, CSS, Bootstrap, PHP, MySQL, AWS
- **Electric Motor Life Monitoring (Predictive Motor Maintenance) | Live Project | Zanvar Group of Industries**
Implementing predictive maintenance using data science and machine learning to monitor electric motor health. Building and training models for fault prediction, anomaly detection, and life expectancy estimation.

EXPERIENCE

- **Technical Content Creator | YouTube – Self-Employed | 2023 – Present**
Built and managed a technical YouTube channel delivering programming and engineering content. Achieved **30K+ views, 200+ subscribers, and 1K+ likes** with strong audience engagement. Simplified complex technical topics into beginner-friendly learning modules.
- **AI/ML Intern Labmentix Edtech Pvt. Ltd. — Remote | June 2025 – August 2025**
Gained practical hands-on experience in AI/ML concepts under professional mentorship. Collaborated with a supportive and innovative team to understand real-world applications of AI/ML.
- **Web Developer Intern | TECSPEAK IT SOLUTION | July 2024**
During my internship, I actively contributed to web development projects using HTML, CSS, and JavaScript, demonstrating strong technical skills and a dedicated work ethic.

Achievements and activities

- AWS Academy Graduate- Cloud Foundation
- AWS Academy Cloud Architecting
- Cloud computing and distributed System (NPTEL)
- Mastering Excel (Younity)
- B2B Marketing (NPTEL)
- Runner-Up- Mini Project Expo 2K25
- Finalist – Spark Hackathon
- Winner – Treasure Hunt Competition
- Lead NSDC Program
- Co-Lead of cloud and Open Source in GDGC
